

Positive ID Verification

VIEW SYSTEMS

View Systems' Positive ID Verification System is a set of tools geared towards checking visitors in and out of a correctional facility, courthouse or other secured location. The package comes complete with a biometric fingerprint reader, ID scanner and visitor badge printer. (Laptop sold separately).

Items can be purchased separately or as part of a package deal.

The software can be integrated with **ViewScan** or used as a stand-alone system. When used with an existing ViewScan, the same laptop can be shared between both applications. When used independently, a package including a laptop must be purchased.

1550 Caton Center Drive, Suite E
Baltimore, Maryland 21227
