View Systems' Exclusive Partner, Belcom, Announces a US Fortune 50 Client in India

BALTIMORE, MD -- (GLOBE NEWSWIRE) -- December 3, 2009 -- View Systems, Inc. (OTC BB: [VSYM.OB](#)), a security and tele-data solutions provider, announced today that the company's exclusive international dealer and business partner, Belcom, has reported a confirmed ViewScan purchase order from the corporate sector. The contract comes from MphasiS, a Hewlett Packard Company based in Bangalore, India.

Belcom's authorized reseller in India, PMG Systems, owned by Dr. S.T. Chacko, states, "The aftermath of 11/26/08 terror attacks in Mumbai, India, has led to an unprecedented effort from the Government of India (GOI) to raise security levels. Belcom, along with PMG Systems, introduced the ViewScan Concealed Weapons Detector to the Indian marketplace in August 2009. There has been a tremendous interest received from the corporate, defense, hospitality and mass transportation industries.

"A confirmed purchase order from MphasiS (a Hewlett Packard Company) for its five locations in India shows the growing acceptance of ViewScan technology over other international manufacturers of door frame metal detectors. ViewScan has set its footprint in India with a US Fortune 50 client. This is a critical landmark to further penetrate into a 1.3 billion population market.

"Belcom has empowered PMG systems to deliver world-class technology at affordable prices to our growing customer base in India."

ViewScan is fast becoming the choice screening system, both domestically and internationally. It's a computer-based system that can scan up to 1200 people per hour. As a person passes through the portal, along with a photograph, threat objects are visually located on the computer screen and an audible alert can be set to sound. The ViewScan produces no harmful emissions so it's safe for everyone.

Belcom is an exclusive international dealer and business partner of View Systems. Belcom, a subsidiary of the Belhasa Group of Companies, represents View Systems' products in the Middle East, Africa & Asia regions. (Source: www.belcom.ae). ViewScan units are currently placed in Saudi Arabia, Bahrain, UAE, India and Pakistan.

Gautham Belthur, General Manager of Belcom, states, "It is indeed a milestone for us to penetrate and add a prestigious US Fortune 50 client to our increasing client portfolio in the ever-competitive security market of India. PMG Systems is truly a professional partner with a thorough knowledge into the Indian marketplace. We are delighted to see a global preference for the ViewScans, along with other View Systems products."
